PROFESSIONAL SUMMARY

Proactive and detail-oriented Full Stack Developer with expertise in the MERN stack (MongoDB , Express.js ,React.js, and Node.js). Demonstrates a strong background in developing scalable web applications, building RESTful APIs, and implementing deployment strategies using Docker and Kubernetes. Experienced in working within agile teams and consistently delivering high-quality software solutions.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science and Engineering	2025
Maharana Pratap Engineering College, Kanpur, Uttar Pradesh, India	
Intermediate (Science)	2020
R K D Inter College Kahinjari, Kanpur Dehat, Uttar Pradesh, India	
High School	2018
R K D Inter College Kahinjari, Kanpur Dehat, U.P. ,India	

TECHNICAL SKILLS

Programming Languages	C++, Python, JavaScript
Backend	Node.js, Express, RESTful APIs
Database Management	MongoDB, MySQL
Frontend	React, HTML, CSS, JavaScript
DevOps Tools	Docker, Kubernetes
Cloud Platforms	AWS
Version Control	Git, GitHub
Other Tools	Postman, Figma

PROFESSIONAL EXPERIENCE

EXPERIENCE

Software Development Intern (Team Lead)	April 2025 – May 2025
---	-----------------------

Bluestock Fintech, Remote

- Led a 4-member team in designing and developing a full-stack IPO web application that provides real-time IPO-related information to users.
- Spearheaded backend development using Node.js and Express.js to build a secure, RESTful API that supports CRUD operations and integrates with MongoDB for dynamic data handling.

PROJECTS

IPO Web Application & REST API

- Building a full-stack IPO information portal delivering real-time IPO data and downloadable RHP/DRHP PDFs.
- 🔗 Developed a secure RESTful API using Node.js, Express.js, and MongoDB to manage IPO details like company logo, name, price band, issue/listing dates, prices, CMP, returns, etc.
- 🔗 Integrated file upload/download features for PDFs using Multer, ensuring proper MIME type handling and storage.
- 🔗 Oversaw task distribution, code quality, and project timelines, while mentoring team members on backend best practices and MongoDB schema design.

Personal Portfolio

Designed and developed a fully responsive personal portfolio website to showcase projects, technical skills downloadable resume.

Email Analyser

An email analyser is a tool or system designed to process, examine, and interpret email data for various purposes, such as security, productivity analysis, pattern recognition, or organizational insights. It can be a standalone application, part of a larger enterprise system, or integrated into email servers to monitor email communications.

E-commerce Platform

Created a scalable e-commerce platform using the MERN stack. Implemented product management, user authentication, and many more.

CERTIFICATIONS

-
- **Microsoft Azure** - AI Fundamentals (AI -900)
 - **HackerRank** - 5-star badges in Python, JavaScript, SQL
 - **HackerRank** - Cleared Python (Basic) , SQL (Basic) , JavaScript (Basic) and CSS Test
 - **GUVI** - Certified in Python Programming

EXTRA-CURRICULAR ACTIVITIES

- Actively contributed to open-source projects, focusing on full-stack development.
- Organized coding workshops and participated in coding challenges to enhance problem-solving skills.

DECLARATION

I hereby declare that all the information mentioned above is true to the best of my knowledge and belief.
